

MATCO EXCLUSIVE

SMART! CARD

MATCO TAP & DIE SETS

HOW MATCO OUTPERFORMS

OTHER MOBILES

HIGH CARBON STEEL

- Can hold a razor sharp edge
- Very hard, to the point of being brittle
- Prone to chipping or cracking from excessive torque or non-ideal use

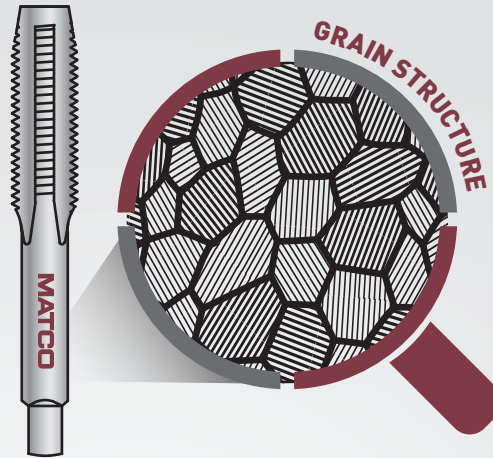

TAP WRENCH

FROM OTHER MOBILES

- Non-ratcheting
- Requires room for turning handle 360° to tap a hole
- Thread handles to tighten onto attachments

MATCO

HIGH-GRADE TOOL STEEL ALLOY

- **Alloyed** with other elements like Silicon, Tungsten and Chomium to make it **more forgiving**
- Maintains high carbon content for a **high performance cutting edge and hardness**
- Allows for **more torque, abuse, non-ideal hole size and alignment** common with fractional drill bits and confined spaces
- Sourced from Japan for the highest quality

RAPID-SELECT RATCHET - MATCO MT40R

- 72 tooth ratchet
- Ratchet requires **minimal movement** to drive tap
- **Quickly switch from FWD to REV** without turning wrench over or working a switch with Rapid-Select arm
- Attachments **quickly click into place** without adjustment
